# PIPES & TUBES

Roofings and steel Ghana Limited tubes are produced from high quality Hot rolled and Cold rolled steel coils (both MS & Galvanised) on State-of-the-Art Tube mills with high frequency induction welding conforming to JIS G 3444.

Finished tubes are strapped in bundles of square, rectangular and hexagonal shapes for stability when stacking or loading into various modes of transportation.

Finished tubes are in shapes of round, square and rectangular as shown below.

## Round Tubes Mild Steel & Galvanised Steel

SIZE MM	THICKNESS	LENGTH	WT/PC	PCS/MT	PCS/BUNDLE

## Applications for Tubes

- Furniture fabrication, chairs, beds and tables, for both domestic and industrial use.
- Fabrication of Wheelbarrows.
- Burglar proof security grill and bars.
- Fabrication of vehicles / truck bodies.
- Structures for tents.
- Fabrication of doors and windows for both domestic and industrial purposes.
- Sizes such as 60×40×3 mm, 80x40 mm are used for both Purlins and Rafters on light commercial, industrial and domestic structures.
- Similar size dimensions are used in the fabrication of truck bodies (depending on vehicle size).

## MS & GALVANISED PLATES

These plates are made from Hot rolled and Cold rolled steel of highest quality that conform to international standards. These are available in both MS and Galvanised.

### Applications for Plates

Billboard Faces, Fuel Tanks, Water Tanks, Reservoirs, Trucks, Bus Bodies, Wheel Barrows, Doors, Panels, Cabinets, Foundation Bases, Furniture, Gates and Fabrication.
